Spring Thing Sprung On BYU, Groovy Feeling Hits Tonight

By Holly Smith
Universe Staff Writer

It has finally sprung at BYU and will be springing out all night long. "Spring Thing-Feeling" is unveiled tonight at the eldohouse.

Effort will culminate at a group of all new BYU students to do their "thing" for once.

Simply can't believe the talent that we have had these past two weeks auditions and rehearsals. "I, Steve Bos, who has been a part of the talent. We are not we have a most unique training evening in store who can attend."

For the event are still here and what's more, tickets can be obtained at the Reception Center in the Student Center where they are being distributed.

Will be sold at the door for students who decide they want to offer ticket distribution.

ag the program tonight is a popular local group, the "Stik." They will provide a good music and special

Photo by Mike Jacobson

IT'S A MANY SPLENDORED THING
during the spring, the thoughts of most people turn to more interesting than studies. Being a BYU student in the can mean many things. For Peter Dynastee and Gayle, spring means a moment to be together.

numbers throughout the entire evening.

Variety is said to be the spice of life, and if this is true, then tonight's program is full of spice.

Over 25 acts have been carefully rehearsed and staged, with a decidedly professional touch.

Every type of vocal number will be spotlighted, from rock to Broadway tunes to folksongs and even an opera number or two.

The vocal numbers will be sung by solo performers, duets, groups and combos.

Between straight vocal numbers will be inter-spiced comedy routines, humorous songs, and other specialty numbers.

All routines are original, and even some of the music to be presented will be original student compositions.

"We really want to stress this fact," explained Jim Chaplin, ASBYU Social Vice-President. "This program was originated by students, developed by students, produced by students and what is more important, all the talent is BYU students. Also the program is mainly for students, though we encourage anyone in the BYU area to come and enjoy the program."

The talent may be all amateur, but staging for the program is

strictly professional. Shelby Seem, who has had wide experience in staging, has designed sets for all the acts and will employ spotlights to focus on the entertainers.

He has also prepared a special light show to add more color to the night's proceedings.

Cash awards and certificates will be presented to the best talent displayed during the program. The winners will be announced during the evening.

"Our only problem with the entire event," stated Steve Bos, "has been trying to decide who to put in the program. We had to eliminate a lot of really talented kids. There is a lot of hidden talent on this campus just waiting to be encouraged and discovered. I only hope this program has allowed more students to blossom."

SWING INTO SPRING

... the Spring Thing-Feeling Groovy is what one BYU coed is swinging her way to. The flowery spring? That's just because. The Spring Thing will feature talent hither-to unseen at BYU—and promises to be just what it's name says—Groovy.

Twenty-Four Nominated ...

Students Gain ASBYU Nod

By Judy Geisler
Assistant News Editor

Twenty-four students were nominated for nine student body offices at the Wednesday nominations meeting held by the ASBYU Elections Committee.

Four students were nominated for the position of ASBYU President. They are: Kim Cameron, junior, sociology, Provo; M.M. "Happy" Cluff, senior, advertising and public relations, El Monte, Calif.; Ken Kartchner, senior, civil engineering, Provo; and Bryan L. Pettit, junior, accounting, Glendale, Calif.

The 1969-70 executive vice president will be appointed by the incoming president in accordance with an executive by-law passed at Thursday's Executive Council meeting.

To avoid future confusion over the selection of this officer, students will choose between two methods of selection: appointment by the ASBYU President, or election as a running mate to the ASBYU President. Balloting will be in conjunction with the final elections.

Two political science majors were nominated for the V.P. of Academics slot. Brian Walton is a senior from Hayes, England, and Wayne Gardner is a sophomore from Duncan, Ariz.

Steve Hanlow and Randy Johnston face each other in the contest for V.P. of Culture. Steve is a sophomore political science major, from Albuquerque, N.M., and Randy is a junior English major, from Pampa, Texas.

Two Illinois residents were nominated for the office of V.P. of Athletics. Cam Caldwell is a senior English major from Park Ridge, Ill.; and Greg Christofferson is a junior

communications major from Glenview, Ill.

Incumbent V.P. of Finance Bill Hepworth is seeking a second term. Bill, a senior business management major from Rupert, Ida. faces Chuck Taylor, a senior in Spanish from Morenci, Ariz.

Al Hallner and Reed Halladay face each other in the race for V.P. of Social Activities. Al is a junior in business management, is from Baker, Ore., and Reed is a sophomore political science major from Provo.

Three seniors and a junior face each other in the contest for V.P. of Student Relations. They are: Jim Ferguson, senior, psychology; Mike Edmunds, senior, speech and public address; Nick Horn, senior, political science; and Fred Podlesny, junior, pre-law.

Three juniors and a senior are competing for the V.P. of Organizations slot. They are: Rich Casper, junior, accounting; C. Steve Flinders, junior, business management; Bob Nielson, junior, accounting; and George Parsons, senior, sociology.

Marnae Brown, junior in international relations, is running against Barbara Gerstner, junior in CDFR, for the V.P. of Women's Activities position.

Until 5 p.m. today, candidates may still be nominated. They must, however, pass the rules and constitution test and be cleared by Student Activities Adviser Bob Baird by the 5 p.m. deadline.

Primary elections are scheduled for April 17 and 18. Only those offices in which more than two students are competing will be included in the primary balloting.

Israel, Egypt Duel

By THE ASSOCIATED PRESS

The guns and tanks of Egypt and Israel blazed away from dawn to dusk along the Suez Canal Thursday in the third and longest duel across the 103-mile waterway in the past seven days.

Radio Cairo said a Greek freighter, apparently one of those trapped at the southern end of the canal since the 1967 war, was hit in the exchange of artillery there. The broadcast identified the vessel as the Alina, but gave no idea how badly she was damaged.

An army spokesman in Tel Aviv said five Israeli soldiers were wounded, three of them seriously, bringing the number of Israeli

casualties in the fights along the canal this year to seven men killed and 34 wounded.

An Egyptian communique broadcast by Radio Cairo put Israeli casualties at 65 soldiers killed or wounded.

It said Egyptian counterforce destroyed eight Israeli tanks, two artillery batteries, three halftracks, two antitank rocket carriers, one ammunition depot, five administration points, four observation posts, two bulldozers and two rocket sites.

The communique listed Egyptian losses as three casualties among the military, one in the town of Suez at the southern end of the canal.

World Highlights

Bodies Found

JE, Vietnam (AP)—In the sands east of Hue, volunteers two weeks have been digging up victims of the worst massacre in Vietnamese war.

Now are the bodies of men, women and children shot, clubbed, buried alive by Viet Cong infiltration squads during the Tet offensive of last year that overran this old imperial capital.

Workers dug up 60 bodies in mass graves Thursday, bringing to 441 the number thus shunned. Allied officials say as many as 2,000 may be found as the work goes on.

Some of the victims were men, but most were civilians on the list carried by political leaders of the invading North Vietnamese and Viet Cong troops. Survivors say the list included names of those who worked for the Americans or actively supported the government, including police, school leaders and civil servants. The state of the bodies was such that so far only 80 have been identified.

Those who made an identification today was Mrs. Nguyen Thi Dao, 39. A frail woman, her red dress from weeping, she was in a coarse white garment

of mourning. So were the two children who clung to her skirts.

She had a picture of her husband, taken soon after they were married. He was a strong, handsome man, smiling at the photographer. The remains of her husband lay in a crude wooden coffin wreathed in incense from smoking joss sticks.

Battle Fought

SAIGON (AP)—A U.S. observation helicopter skimming tree tops along the Cambodian border spotted a North Vietnamese base camp Thursday and touched off a battle costly to the enemy.

The area near the border about 65 miles northwest of Saigon is where the U.S. 25th Infantry Division has clashed frequently with North Vietnamese. But not an American foot soldier got into the battle.

In some recent clashes artillery and air power have been the brunt of battle. It was reflected last week in the lowest U.S. casualty list since the enemy offensive began more than six weeks ago.

The two-man observation helicopter found bunkers and six gun emplacements before it was fired upon by an antiaircraft gun and called for help from a Cobra gunship flying protective cover.

The two helicopters asked for artillery and fighter-bomber strikes. The North Vietnamese blazed away with antiaircraft fire at the helicopters and fighter-bombers, scored some hits but failed to shoot any down, a U.S. spokesman said.

Phone Problems

NEW YORK (AP)—Telephone users in some major cities are complaining about delayed installations, poor servicing of equipment and crowded phone lines.

And the president of the American Telephone & Telegraph Co. admits there are problems in some areas but says service is getting better.

In Los Angeles, Boston, Chicago, New York and southern Florida there are complaints about delayed installation and repairs, misdirected calls and long waits for dial tones.

While the U.S. telephone system continues to enjoy a reputation as the best in the world, service is suffering from an upsurge of demand.

No Compromise

GENEVA (AP)—The 17-nation disarmament talks returned to a familiar pattern Thursday as the Soviet Union rejected an American compromise offer on curbing the nuclear armaments race and insisted on an old Russian proposal repeatedly termed unacceptable by the United States.

A little later, however, the two powers announced they will start talks Monday in Vienna on making available peaceful nuclear explosives which could transform the economies of developing nations.

Soviet negotiator Alexei A. Rochablin made short shrift of the plan for a cutoff in production of fissionable nuclear material for atomic weapons.

Strikers Negotiate

CHICAGO (AP)—Representatives of the Illinois Central Railroad and the United Transportation Union met Wednesday in an effort to settle a strike that tied up the railroad's service in 14 states. Some 40,000 Chicago commuters were among those affected.

The railroad also sued in U.S. District Court in Nashville, Tenn., for a temporary restraining order against the union whose 4,000 employees left their jobs Tuesday night. Judge William E. Miller promised a ruling by Thursday or Friday.

Job Offers Open Up For B.A. Candidates

College recruiters this year are making more offers than ever at the bachelor's degree level but, for the second straight year, they are extending fewer offers at the master's and doctoral levels throughout the United States.

The number of offers to bachelor's degree candidates has risen 13 per cent over the corresponding period last year, according to B. Keith Duffin, placement director at BYU.

BYU is one of 122 representative institutions from coast to coast participating in the College Placement Council's Salary Survey. The Council's studies cover beginnings salary offers being made to make students during the current season. The final report will appear in late June.

Based on dollar averages, chemical engineers continued to be the most sought-after candidates at the bachelor's level—as has been the case since June 1965. They were followed by four other engineering groups—electrical, mechanical, metallurgical, and aeronautical. However, accounting majors experienced the largest percentage increase since June with a gain of 7.7 per cent.

Once again in the over-all dollar averages, non-technical offers to bachelor's candidates advanced more rapidly than technical offers. Non-technical averages went up 7.3 per cent from \$657 last June to \$705, including a 1.9 per cent gain since the first CPC report in January. Technical averages, rising from \$767 to \$813, were up 6 per cent over June, including a 1.6 per cent increase since January.

The types of employers which were the prime contributors to the increased number of offers at the bachelor's level were public accounting, aerospace, chemicals and drugs, electrical machinery, and electronics.

From the standpoint of dollar averages, the types of employers with the largest increases since June were food and beverage processing, research and consulting, public accounting, chemicals and drugs.

English Test Scheduled Saturday

The Junior English Proficiency Examination will be given Saturday in the Joseph Smith Auditorium.

Students whose last names begin with letters K-Z will be examined at 7 a.m. Those whose last names begin with A-J will take the test at 10 a.m.

Admission will be by activity card with photo attached and registration for the exam will begin 30 minutes prior to the scheduled testing time.

Only those who have completed 60 semester hours together with the freshman English composition requirements are eligible to take the exam. All students must pass this exam to qualify for graduation from BYU.

All students should review the examination requirements on page 12 of the current class schedule.

Students should bring a soft lead pencil for the objective part and a pen for the essay—all other testing materials will be furnished.

glass-paper-packaging, and metals and metal products.

Chemical engineers at the graduate levels also continued in great demand, leading all other candidates in percentage increases since June. At the master's level, their average offer went up 5.7 per cent and at the doctoral level their gain was 4.4 per cent.

In general, the percentage increases in dollar value of offers at the two graduate levels were lower than those experienced by bachelor's candidates. MBA candidates with a non-technical background, for example, gained 4.1 per cent over June while those with a technical undergraduate degree went up 3.7 per cent.

Games Center Offers Saturday Night Fun

Attention Ebenezer Scrooges! Here's the sports bargain you've been waiting for—the Saturday Night Classic. Scheduled for 6:30 p.m. in the games center Saturday, the classic offers competition in four sports for only 35 cents.

Continuous action for all participants is the aim of the classic's planners. An entrant is started off in one sport, and then

continues to compete in that sport until he loses. Immediately after losing, he is entered in one of the other three sports. So by the time the evening is finished, each classic entrant has competed in bowling, ping pong, shuffleboard, and labyrinth.

Adding zest to the competition are prizes. Winners in each event receive gift certificates to the book store.

Hey, the weekend starts tonight (and so do low Long Distance rates)

From 7 PM Friday night to 7 AM Monday morning (including all day Saturday and all day Sunday) you can call out of state anywhere in the continental U.S. (except Alaska), talk for three minutes, and PAY NO MORE THAN ONE BUCK!

Call early.

Avoid the Sunday evening traffic jam between 8:30 and 11:30.

Phys. Ed. Chairman Honored Nationally

Dr. Leona Holbrook, chairman of Women's Physical Education at Brigham Young University, will receive the R. Tait McKenzie Award of the American Association for Health, Physical Education and Recreation at its annual meeting in Boston today.

The McKenzie Award recognizes individuals who have exemplified distinguished service in the association. Dr. Holbrook is a past president of the organization which has 52,000 members.

This is only the second time the award has been given. It honors the late Dr. McKenzie, artist, surgeon, and physical educator, who founded the American Academy of Physical Education and was its first president in 1930.

Two weeks ago Dr. Holbrook received the Helms Foundation Leadership Award at ceremonies in Gallup, N.M., for her leadership in youth activities in the nation.

A major professional figure on the local, state, district, national, and international scenes, Dr. Holbrook received her B.S. degree from University of Utah, and the M.S. and Ed.D. degrees from Teachers College, Columbia University.

Engineering and Science at IBM

"The interdisciplinary environment keeps you technologically hot."

"Working in data processing today pretty much means you work in a broad spectrum of technologies," says Nick Donofrio.

An Associate Engineer at IBM, Nick is a 1967 graduate in Electrical Engineering. He's using his technical background to design circuits for computer memory systems.

"Circuit design used to be a narrow job," he says. "Today it can take you into the front yard of half a dozen different fields. In my job, for example, I work with systems design engineers, chemists, physicists, metallurgists, and programmers."

Nick describes a hypothetical case history: "A memory systems man comes to me with memory circuit requirements. Before I can start designing the circuit, I go to see a physicist. He helps me select an appropriate technology for the monolithic circuit.

"As the design develops, I work with a test group and also check back with the systems and semiconductor people to make sure I'm on the right track."

Keeping up

The interdisciplinary environment at IBM helps you keep up to date technologically. As Nick puts it, "You're constantly exposed to what's happening in other fields."

IBM needs technical graduates to work in research, design and development, manufacturing, product test, field engineering, and space and defense projects. We also need technical people in programming and marketing.

UTEP Ranks Highest...

Spikers High In WAC Stats

From the WAC Office

Mike Fray has burst onto the Western Athletic Conference track and field scene in such a hurry that he has already caught one all-time conference record.

The Texas-El Paso junior blazed the 100-yard dash against Brigham Young last week in 9.3 seconds, tying the all-time WAC mark established by Henry Carr of Arizona State in 1963 and tied by Bernie Rivers of New Mexico one year later.

Fray and Brigham Young jumper Pettit Pousi are the only two cindermen to lead WAC best performances in two events following all meets of April 7. Fray tops the 100 with his 9.3 and the 220 with a 20.7 made in the same meet.

Pousi, a junior from Finland who won the NCAA long jump championship last year and was runnerup in the triple jump, continues to dominate those two events in the league this year. He has a best of 25-1 1/4. They rank 1-2-3 in the conference.

Brigham Young's long jump crew is so talented that three different athletes have sailed past 25 feet. In addition to Pousi's best, Jim Blaisdell has soared 25-2 and Kari Palmen has gone 25-1 1/4. They rank 1-2-3 in the conference.

Texas-El Paso has wasted no time in proving that it belongs among the elite of WAC track and field. The Miners edged defending champion Brigham Young, 74-70, at El Paso last week two days after the Cougars had nudged New Mexico, 74-68.

The Miners hold No. 1 rankings in nine of the 17 events, including both the 440 and mile relays.

Brigham Young and Arizona State each lead four categories, while Arizona tops one.

Arizona's leader is Lorenzo Allen, freshman high jumper who cleared 7-1 1/4 last week.

ORGANIZED MAYHEM

to BYU again as the Cougar rugby club hosts a tough Denver squad tomorrow at 3 p.m. on Haws Field (just west of the Fieldhouse.)

Miller Returns To Lead Omni-Varsity Golf Greats

of the Cougar oldsters ngsters will take place i Brigham Young s alumni golfers get est the strength of the risty squad at the ntry Club.

linksters, led by past i All-Americans John ke Taylor, are looking er the Cougar varsity, te of victory for the e five years ago at ry Club.

th of the alumni squad the talented hands of Miller, who was the

star of the Cougar golf team for the past three seasons, just recently turned pro and has signed his application to attend the PGA Players School session at West Palm Beach, Florida.

In the National Open in 1966, which was the tournament won by Billy Casper, Miller placed seventh with rounds of 70-72-74-290. He was low amateur in the national open, by three shots over Bob Murphy, now a double winner on the pro tour.

Other alumni golfers will be Mike Taylor, Coach Karl Tucker, Sonny Braun, Doug Swenson, Craig Ridd,

Kean Ridd, John Evans, Kent Uidhjem (a member of the BYU golf team in '47), Max Fillmore, Moe Jackman, and Mike Smith.

BYU's varsity squad, led by freshman Ray Leach, who is practice Tuesday shot a hole-in-one on the third hole for a round of 65, should prove to have too much depth for the alumni.

Adding strength to the Cougar team will be Lane Bennett, a junior, who placed second in the Western Intercollegiate Golf tournament in Santa Cruz last week with a low round of 69; sophomore Don Hawken; senior Jack Chapman; sophomore Chip Garris; junior Ron Janney; and freshman Tee Tyler.

Saturday Afternoon...

Ruggers Host Denver

By Chuck Peterson
Universe Sportswriter

BYU's rugby fortunes will receive a severe test Saturday as the Denver Barbarians, one of the best club teams in the country, attempt to upset the Cougars in their home field at 3 p.m. on Haws Field.

Fortunately, the Cougars have had the depth this spring to adequately fill the positions left vacant by injuries and sickness. Jerry Cook, Joe Scanlon and Rick Congdon will have to fill in the two prop positions left vacant.

With the back line in good shape

the forwards will have to play their best to balance the squad.

The Barbarians are an experienced squad so the difference in the game could well be conditioning.

The fact that BYU has tallied 178 points against its opponents while only 47 points have been scored against BYU shows BYU's great offensive strength.

BYU "B" will face the Bountiful Rugby Club at 4:30 p.m.

Some unusual rugby action is scheduled for the 17th of April. Thirty members of the BYU Angel Flight unit will face 15 members of the BYU rugby squad.

Attention All 1969 Graduates

Congratulations on this fine achievement! If you are thinking about automobiles, may we suggest that you don't buy a car unless you can afford one and then **BUY ONLY WHAT YOU CAN AFFORD.** If you have decided upon an employer and will require transportation, we sincerely believe your best buy is a brand new 1969 Volkswagen because:

1. Financing: A bank loan can be arranged for entire purchase price. First monthly payment due in July.
2. Fun Car: The 1969 VW is the best ever and is a real pleasure to own and drive.
3. Economy: Low original cost, highest resale value, 24,000 mile written warranty, extremely low operating costs.

So please come in, try out a VW, and talk over your car needs.

LEE BERGE

... has moved from third base to shortstop for the Cougars in the 1969 campaign. Berge is a junior from Provo who has helped the defending WAC and

NCAA District 7 Champions compile a 14-5 record this season including a triumph over UCLA which last week was ranked second in the nation.

Zinniger vs. Hardy...

Cougars, 'Skins Collide

By Mike Twitty
Asst. Sports Editor

BYU's hustling baseball team returns to the diamond this afternoon to initiate WAC play against arch-rival Utah.

The game, to begin at 2:30 p.m. on the new field, promises to be the traditional battle of "win or else." Today's battle will feature two of the area's top pitchers, both southpaws. Starting for the Cougars is Richard Zinniger who leads the staff with a 5-0 record and a 1.80 ERA.

Leading the Redskins will be Dick Hardy who has beaten the Cougars in four straight outings. Hardy pitched five innings of shutout ball Tuesday against Mesa College as the Utes swept a double-header.

The twin victories evened the Redskins record at 9-9 compared to 14-5 for BYU. Although Utah finished second to the Cougars in

the WAC Northern Division last year, each team defeated the other three times.

Radio station KEYY (1450) will broadcast the BYU-Utah series this weekend beginning at 2:20 p.m. today and 12:50 p.m. tomorrow.

Utah, in its seventeenth year under Coach Pres Summerhayes, has been led this year by third baseman Tom Kilgore who boasts a .472

battling average including 3 homers.

Frank King, who led the WAC last year with a .409 average, will handle the catching chores during the series.

Saturday, the teams move to Darks Field in Salt Lake City with a doubleheader beginning at 1 p.m.

CULTURE

Sabbatical Takes Toll

By Janis A. Roadseth
Universe Culture Writer

Assistant professor of speech and dramatic arts, Robert E. Struthers, has been granted a teaching sabbatical at Ohio State University for the 1969-1970 school year.

Struthers has been responsible for much of the magic on the BYU drama stage the last 17 years.

A veteran of 160 BYU productions, he is stage technical designer for the five theaters of the Harris Fine Arts Center.

SPECIAL EFFECTS

He has made ghosts to appear and disappear, snow to fall, water to run on stage, doors to open from both sides and stage scenery appear to burn down.

Recently, Struthers was responsible for the mechanization of the sun burst in "Royal Hunt of the Sun."

the Sun." The elaborate set opened to form a sunburst with the Incan chief standing inside.

Mechanized turntables for "Oliver" and mechanized rotating stage for "Music Man" are other accomplishments.

Charles Henson, stage designer for the BYU theater has said, "Bob has always been able to build anything I have designed."

LEAVING

Struthers is leaving Provo in June to attend summer school at Ohio State University, in Columbus, Ohio.

While working on his doctorate during the sabbatical leave from BYU, he will be responsible for supervising student teachers of speech and dramatic arts.

Struthers received his B.S. from Utah State University in 1949 and his M.S. from BYU in 1953. He will return to the Y for the 1970-1971 school year.

Students planning to convert data to machine-readable form for the Computer Center, particularly the Data Production Group are asked to call ext. 3143 or check at C-73 Smoot Bldg. for information and guidelines on intelligent planning for the Center's use.

Spring Concert...

Chorale Program Set

A spring concert presented by the University Chorale is scheduled for today at 8:15 p.m. in the de Jong Concert Hall, Harris Fine Arts Center.

University Chorale, a non-audition organization, is the largest choral organization on campus, with members from all majors in the university.

Conducted by Professor Brandt Curtis, the 165-member chorale has prepared a varied program comprising composers from Bach to Crawford Gates.

Regular conductor for the chorale is Kurt Weininger, but he is teaching on a semester abroad in Salzburg.

Director of BYU's Opera Workshop, Professor Curtis is well-experienced with singing groups. Graduate assistant Clayne Robinson will assist Professor Curtis in directing Friday evening.

Eight cellists and soprano soloist Clare Johnson will be special guests of the Chorale.

Directed by Percy Kall, the cellists are or have been members of the BYU Symphonic Orchestra, and will perform "Bachianas Brasileiras No. 5" by Hector Villa-Lobos.

Music Majors, Departments Are Featured

The BYU Music Dept. is arranged in three major areas, music theory, applied music and music education.

Headed by Dr. Harold Laycock, the area of music theory offers a bachelor, master and doctorate degree. Students who wish to become composers, arrangers, or music copyists or who wish to teach theory of music, major in music theory.

Dr. Glenn Williams heads the area of applied music in which all music students are involved. Each music student studies a certain amount of applied music in order to develop proficiency on his major instrument or in voice, but it is the student who wishes to become a performer who majors in applied music. A.B.A. in all areas of applied music and a master's in piano, organ and voice are offered.

The music education program directed by Dr. James Mason provides professional training for prospective teachers of music in the public schools, junior colleges and universities. Teachers of general music, music theory, music history and class piano are prepared through this program.

Elementary classroom music teachers, conductors of bands, orchestras and choirs, plus music therapists, supervisors of music in industry and private instructors are other professions open to the music education major.

Directed by Dr. Harold Goodman, the BYU Music Dept. sponsors five choruses, two orchestras, two bands and several chamber organizations. In addition, there is an opera workshop and considerable opportunity for individual solo performance in recital.

Each year the Music Dept. sponsors more than 265 concerts and recitals, excluding lyceums sponsored by the student body.

With an academic faculty of 37, 21 special part-time instructors and 22 graduate assistants, the BYU Music Dept. includes nearly 500 music majors. In addition, nearly 4500 non-music major students take music classes.

In homage to the genius of Bach, this contemporary Brazilian composer wrote "Bachianas Brasileiras." The harmonies and counterpoint are highly reminiscent of the Baroque composer while the melodies are in the style of Brazilian folk tunes.

An added highlight of the program is the performance of Clay Christensen's "Lord We Thank Thee for the Gospel," selected as the best composition in the Chorale Composition contest last fall.

n times the people
the incentives are too

great to pass up. Granted, some
ill-informed person might like to
run just because of the cash value
involved—tuition and fees plus
\$100 per semester for the V.P.'s.
But they must be kidding.

WAGE
A division for an hourly wage
breakdown would make one wish
he had become a garbage collector
instead. He'd probably make a lot
more, too.

But even after the foregoing has
been explained there are still some
SUPER SPIRITS who feel that this
is all a fake. These are the people
who decide to run at the last
minute and really don't know what
the deal is all about.

These are the people who give
student government a bad name
and cause an apathetic student
body to become more apathetic.

DON'T VOTE
So, DON'T VOTE unless you are
willing to accept the
responsibilities of your own
actions.

DON'T VOTE unless you can
support a person who is honestly
concerned with the relationship
between the student and the
administration, and has a vivid
understanding and working
knowledge of the job and problems
involved.

RUMOR
Rumor has it, however that the
majority of the students won't take
the time to get informed so that
they can vote.

Old Vaudeville Props Needed

A group of students at BYU are
looking for old-time stage illusions
and circus equipment which they
can restore.

They have hit upon the idea of
creating a traditional variety
theater to keep alive some of the
great visual entertainment arts of
yesteryear which are being
extinguished by the electronic
entertainment media.

Clive Court, a junior in
communications and dramatic arts
from England, is the organizer
behind the newly formed group.
He maintains that there is a great
deal of old-time vaudeville and
circus equipment collecting dust in
attics and cellars all across the
country. Court performs a comedy
magic act for the BYU Program
Bureau.

The students are particularly
looking for wire-walking, trapeze,
juggling and balancing equipment.
And some of those grand stage
illusions from the heyday of
Houdini, Dante, Thurston, Keller
and Blackstone.

Prepsters Compete In Drama

By Janis A. Roalseth
Universe Culture Writer

High school drama students from
throughout the state are currently
involved in the State Drama
Festival.

In conjunction with the Speech
and Dramatic Arts Dept., the
festival begins today and runs
through Saturday afternoon.

Many competitive events, both
individual and “team,” are
scheduled.

Some of these include, in the
individual area, mono-acting,
dramatic and humorous readings,
retold story and pantomime.

One act play contest, divided
into two categories, “A” and “B”
class schools, comprise the
competition for the “teams.”

“A” school one act plays will
start today at 8 a.m. and run
through the day in the Pardoe
Drama Theatre of the Harris Fine
Arts Center.

“B” schools one act play
competition will commence at 10
a.m. today in the Nelke
Experimental Theatre of the Harris
Fine Arts Center.

At 1:30 p.m. on Saturday, Dr.
Preston Gledhill will do a rehearsal
performance of “The Fantasticks”
in the Drama Theatre for the
contestants.

An awards assembly is scheduled
for 3:30 p.m. on Saturday in the
de Jong Concert Hall of the Harris
Fine Arts Center.

'Fantasticks' Tickets Available

Tickets go on sale today for
“The Fantasticks” in the box
office of the Harris Fine Arts
Center.
Performances are nightly.

except Sunday, at 8:15 p.m.
in the Pardoe Drama Theatre,
Harris Fine Arts Center.
Tuesday's curtain time is
3:30 p.m.
